

**WORLD'S FIRST WIRE
WOOL AND RACE TESTED
LENS PROTECTOR**

safety data and fitting guide

www.armorvision.co

PRODUCT INFORMATION:
ArmorVision | SmartFilm™ is specifically designed to keep your vision clear and unobstructed while racing. With its hydrophobic coating and wire wool testing, it effectively prevents primary racing vision from being impaired by scuffs and scratches.

FOR HELP: SEE THE INSTRUCTION PHOTOS ON THE LAST PAGE.

PLEASE NOTE: ArmorVision | SmartFilm™ WILL NOT damage any lens and will never leave a sticky residue.

RECOMMENDED:
Centre your SmartFilm™ on the lens before you fit, and use a squeegee or similar to help bond the SmartFilm™ to the lens. You can achieve the same results by applying pressure using your hands.
THIS IS THE MOST IMPORTANT STEP.

Find the centre and peel the white backing film 1 to 2 inches and fold - using your finger bond the SmartFilm™ to the lens by applying pressure - now, simply allow the SmartFilm™ to wet out across the rest of the lens by gradually pulling back on the white backing film. (Apply pressure throughout this process for best results)

NOTE: ALWAYS, fit SmartFilm™ to a brand-new lens, used together with an

ArmorVision | ImpactLens™ is recommended.
Always make sure the lens surface is free from static and or any dust particles or debris. For best results change your SmartFilm™ every 7/10 days or at your own discretion.

IMPORTANT:
ArmorVision | SmartFilm™ is designed to withstand; impacts/abrasions/roost/snow/wind/dust/grit/mud/humidity and harmful (solar) rays.

NOTE: Severe and harsh impacts, hard sharp or blunt objects are not recommended - damage from non-fault/fault accidents can be expected. No product can protect the user against all potential impacts.
ArmorVision | SmartFilm™ is not suitable for protection against direct sunlight or artificial light sources. In dark or foggy conditions, clear lenses (transparent) are always advised.

SALES:
In agreement and in association with Goggle Technology Ltd, responsible for the development and commercialisation / distribution in the EU and worldwide is: Armor Vision (UK) LTD, 27, Old Gloucester Street, London, England. These products and attributed intellectual property belong to GOGGLETECHNOLGY LTD and are supplied exclusively to ArmorVision.

**Please Note :
NOT FOR ROAD USE**
