

DOT 4 BRAKE FLUID

Version: 1.1

Released: 2017-12-12

Revision Date: 2020-11-12

1. IDENTIFICATION OF THE SUBSTANCE / APPLICATION AND THE COMPANY

Supplier:
Maxima Racing Oils
9266 Abraham Way
Santee, CA 92071
USA
+1 619 449 5000

Product Name: DOT 4 Brake Fluid
Article Number:
Applications: Brake Fluid
Emergency Telephone: CHEMTREC +1 703 527 3887 (24 hours)

2. HAZARDS IDENTIFICATION

GHS Classification

Eye Irritant Category 2
Toxic to Reproduction Category 2

GHS Pictogram

Signal Word Hazard Statements

Warning!
H319 Causes eye irritation.
H361 Suspected of damaging fertility or the unborn child.

Precautionary Statements

Prevention P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P280 Wear eye protection.

Response P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical attention.

Storage P405 Store locked up.

Disposal P501 Dispose of contents and container in accordance with local and national regulations.

Other Hazards None

3. COMPOSITION / INFORMATION ON INGREDIENTS

Components	Content %	CAS Number
n-Butyl triglycol	20-30	143-22-6
2,2'-oxybisethanol	15-25	111-46-6
Tris[2-[2-(2-methoxyethoxy)ethoxy]ethyl]-orthoborate	5-20	30989-05-0

DOT 4 BRAKE FLUID

Version: 1.1

Released: 2017-12-12

Revision Date: 2020-11-12

Butyl polyglycol	5-10	9004-77-7
2-(2-butoxyethoxy)ethanol	0-< 3	112-34-5
2-(2-methoxyethoxy)ethanol	0-< 3	111-77-3

The specific identity and/or exact percentage has been withheld as a trade secret.

4. FIRST-AID MEASURES

Inhalation	If irritation is experienced, move to fresh air. Get medical attention if irritation or other symptoms develop and persist.
Skin Contact	Wash skin with soap and water. Remove clothing and shoes if contaminated. Launder clothing before reuse. If irritation or rash develops, get medical attention.
Eye Contact	Flush eyes with large quantities of water, holding the eyelids apart. Get medical attention if irritation develops or persists.
Ingestion	If conscious, rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.
Most Important Symptoms	Causes eye irritation. Prolonged skin contact may cause irritation. Inhalation of vapors or mist may cause respiratory irritation. Swallowing may cause gastrointestinal irritation, nausea, vomiting, blurred vision, irritability, back pain, and central nervous system effects. Swallowing may cause damage to kidneys through prolonged or repeated exposure. Possible developmental hazard. May adversely affect the developing fetus or cause birth defects based on animal data.
Indication of Immediate Medical Attention Needed	Get immediate medical attention if large amounts have been swallowed.
Notes to Physician	Treat symptomatically

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media	Use water fog, alcohol-resistant foam, dry chemical or carbon dioxide (CO ₂) to extinguish flames. A solid stream of water or foam can cause frothing.
Specific Hazards Arising From The Chemical	This product is not flammable but may form explosive mixtures in air. Combustion will produce carbon oxides, aldehydes and ethers.
Special Protective Equipment And Precautions For Fire-Fighters	Firefighters should wear full emergency equipment and approved positive pressure self-contained breathing apparatus. Do not enter fire area without proper protection. Cool exposed intact containers with water.

6. ACCIDENTAL RELEASE MEASURES

DOT 4 BRAKE FLUID

Version: 1.1

Released: 2017-12-12

Revision Date: 2020-11-12

Personal Precautions	Wear appropriate protective equipment. Wash thoroughly after handling. See also: "Personal Protection "section 8.
Environmental Hazards	Avoid release into the environment. Report spill as required by local and federal regulations.
Methods/Materials for Cleaning up	Dike spill and collect with an inert absorbent. Place into closable containers for disposal. Collected material is handled in accordance with section 13 "Disposal Considerations".

7. HANDLING AND STORAGE

Precautions for Safe Handling:	Harmful if swallowed in large amounts. Do not drink the product. Avoid contact with eyes, skin and clothing. Avoid breathing vapors and mists. Wash thoroughly with soap and water after handling. Remove soaked clothing and launder before re-use.
Conditions for Safe Storage	Store in a cool, dry, well-ventilated area. Store away from oxidizers and other incompatible materials. Protect from physical damage.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits	n-Butyl triglycol	None Established
	2,2'-oxybisethanol	None Established
	Tris[2-[2-(methoxyethoxy)ethoxy]ethyl]-orthoborate	None Established
	Butyl polyglycol	None Established
	2-(2-butoxyethoxy)ethanol	None Established
	2-(2-methoxyethoxy)ethanol	None Established
Appropriate Engineering Controls	Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.	
Personal Protection		
Respiratory Protection:	None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.	
Eye Protection:	Safety glasses or goggles recommended if splashing is possible.	
Skin/Body Protection:	Appropriate protective clothing as needed to minimize skin contact. Suitable eye flushing facilities should be available in the work area. Contaminated clothing should be removed and laundered before re-use.	
Hand Protection:	Use nitrile or butyl rubber gloves for prolonged or repeated skin contact.	

9. PHYSICAL AND CHEMICAL PROPERTIES

DOT 4 BRAKE FLUID

Version: 1.1

Released: 2017-12-12

Revision Date: 2020-11-12

Appearance	Clear liquid
Color	Amber
Odor	Mild
Odor Threshold	Testing not relevant or not possible due to nature of the product
pH	7.0 to 10.5
Melting/freezing Point	<-58°F (<-50°C)
Boiling Point	>410°F (>210°C)
Flash Point	>212°F (>100°C)
Evaporation Rate	0.01
Flammability (solid, gas)	Testing not relevant or not possible due to nature of the product
Upper Explosion Limit	Testing not relevant or not possible due to nature of the product
Lower Explosion Limit	Testing not relevant or not possible due to nature of the product
Vapor Pressure	1.0 mbar
Vapor Density (Air=1)	Testing not relevant or not possible due to nature of the product
Relative Density	1.010-1.060 g/ml @68°F
Solubility	Soluble in water
Partition Coefficient: n-octanol/water	1.50
Auto Ignition Temperature	>536°F (>280°C)
Decomposition Temperature	572°F (300°C)
Volatile Organic Compounds (VOC)	Testing not relevant or not possible due to nature of the product
Viscosity	Approx. 5-10 cSt @ 68°F

10. STABILITY AND REACTIVITY

Reactivity	Not expected to be reactive.
Chemical Stability	Stable.
Possibility of Hazardous Reactions	Glycol ethers can form peroxides on storage. Glycol ethers can react with light metals under the evolution of hydrogen gas.
Conditions to Avoid	Do not distil to dryness without testing for peroxide formation.
Incompatible Materials	Avoid contact with strong oxidizing agents. For user safety, brake fluid should never be contaminated with any other substance.
Hazardous Decomposition Product	Thermal decomposition may produce carbon oxides, aldehydes and ethers.

11. TOXICOLOGICAL INFORMATION

Potential Health Hazards

Eye Contact: Causes eye irritation with redness, tearing and pain.

DOT 4 BRAKE FLUID

Version: 1.1

Released: 2017-12-12

Revision Date: 2020-11-12

Skin Contact: Prolonged skin contact may cause irritation. May penetrate the skin.**Inhalation:** Excessive inhalation of vapors or mists may cause upper respiratory tract irritation.**Ingestion:** Swallowing large amounts may cause gastrointestinal irritation or pain, nausea, vomiting, central nervous system effects, irregular eye movements, convulsions and coma. May cause severe kidney damage which may be fatal.**Chronic Effects of Overexposure:** One of the components (2,2'-oxybisethanol) may have adverse effects on the kidneys after prolonged exposure (ingestion).**Sensitization:** None of the components have been found to cause sensitization in animals or humans.**Mutagenicity:** This product is not expected to cause mutagenic activity.**Reproductive Toxicity:** This product contains two substances that are expected to cause reproductive or developmental effects (tris[2-[2-(2-methoxyethoxy)ethoxy]ethyl]orthoborate and 2-(2-methoxyethoxy)ethanol).**Carcinogenicity:** None of the components of this product are listed as a carcinogen or suspected carcinogen by IARC, NTP, or OSHA.**Acute Toxicity:**

Product	Oral rat LD50 >5000 mg/kg
	Inhalation rat LC50 NA
	Dermal rabbit LD50 >3000 mg/kg

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product	96 hr LC50 Oncorhynchus mykiss >100 mg/L
	48 hr EC50 Daphnia magna NA
	72 hr EC50 algae NA

Biodegradation The product is inherently biodegradable, and is expected to be readily biodegradable based on ingredient data (OECD 302B)**Bioaccumulation** Log Pow for all main ingredients < 2 which suggests that the potential for bioaccumulation is low**Mobility in soil** Soluble in water and will partition to aqueous phase. Mobile in soil.**Other adverse effects:** None known.

13. DISPOSAL CONSIDERATIONS

Disposal Dispose in accordance with all local, state and federal regulations.

14. TRANSPORT INFORMATION

	UN Number	Proper shipping name	Hazard Class	Packing Group	Environmental Hazard
DOT					

DOT 4 BRAKE FLUID

Version: 1.1

Released: 2017-12-12

Revision Date: 2020-11-12

TDG					
IMDG					
IATA					

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code): Not applicable – product is transported only in packaged form

Special precautions: None known.

15. REGULATORY INFORMATION

CERCLA: Glycol ethers are regulated as a generic class under this legislation.

EPA SARA 302: This product does not contain chemicals regulated under SARA Section 302.

EPA SARA 311 Hazard Classification: Acute Health, Delayed Chronic Health

EPA SARA 313: This product contains the following chemicals that are regulated under SARA Title III, section 313: Glycol ethers are regulated as a generic class under this legislation.

California Proposition 65: This product contains the following chemicals known to the State of California to cause cancer and reproductive toxicity: None

Chemical Inventories

Toxic Substances Control Act: All of the components of this product are listed on the TSCA inventory

16. OTHER INFORMATION

NFPA Rating (NFPA 704):

Health: 2

Fire: 1

Instability: 0

HMIS Rating:

Health: 2*

Fire: 1

Physical Hazard: 0

*Chronic Health Hazard

Date of Revision: 12 November, 2020

Date of Previous Revision: 12 December, 2017

Revision History: the following sections have been revised: 2, 3, 4, 8, 9, 11, 15 and 16

The above information is based on the data of which we are aware and is believed to be correct as of the date hereof.
