DOT 5 BRAKE FLUID

Version: 1.1
Released: 2017-12-22 Revision Date: 2024-09-30

1. IDENTIFICATION OF THE SUBSTANCE / APPLICATION AND THE COMPANY

Supplier:

Maxima Racing Oils
9266 Abraham Way
Santee, CA 92071
USA
+1 619 449 5000

Product Name: DOT 5 Brake Fluid

Article Number: 80-81916

Applications: Brake Fluid

Emergency Telephone: In USA: CHEMTREC +1 703 527 3887 (24 hours)
Outside USA: +1 619 449 5000

2. HAZARDS IDENTIFICATION

GHS Classification

Carcinogenicity: Category 2

GHS Pictogram

Signal Word **Warning!**

Hazard Statements H351 Suspected of causing cancer.

Precautionary Statements

Prevention P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and
P280 Wear protective gloves.

Response P308 + P313 IF exposed or concerned: Get medical attention.

Storage P405 Store locked up.

Disposal P501 Dispose of contents and container in accordance with local and national regulations.

Other Hazards None

3. COMPOSITION / INFORMATION ON INGREDIENTS

Components	Content %	CAS Number
Polydimethylsiloxane	90-100	63148-62-9
Tributylphosphate	>0.1-<1	126-73-8

The specific identity and/or exact percentage has been withheld as a trade secret.

DOT 5 BRAKE FLUID

Version: 1.1
Released: 2017-12-22 Revision Date: 2024-09-30

4. FIRST-AID MEASURES

Inhalation	If irritation is experienced, move to fresh air. Get medical attention if irritation or other symptoms develop and persist.
Skin Contact	Wash skin with soap and water. Remove clothing and shoes if contaminated. Launder clothing before reuse. If irritation or rash develops, get medical attention.
Eye Contact	Flush eyes with water for several minutes. Remove contact lenses, if present and easy to do so. If eye irritation persists, get medical attention.
Ingestion	If conscious, rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.
Most Important Symptoms	May cause mild eye irritation. Causes mild skin irritation. Inhalation of vapors or mist may cause respiratory irritation. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.
Indication of Immediate Medical Attention Needed	Immediate medical attention is not required.
Notes to Physician	Treat appropriately

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media	Use water fog, alcohol foam, dry chemical or carbon dioxide (CO2) to extinguish flames. A solid stream of water or foam can cause frothing.
Specific Hazards Arising From The Chemical	This product is not flammable but may form explosive mixtures in air. Combustion will produce carbon oxides, aldehydes and ethers.
Special Protective Equipment And Precautions For Fire-Fighters	Firefighters should wear full emergency equipment and approved positive pressure self-contained breathing apparatus. Cool exposed intact containers with water.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions	Wear appropriate protective equipment. Wash thoroughly after handling. See also: “Personal Protection "section 8.
Environmental Hazards	Avoid release into the environment. Report spill as required by local and federal regulations.

DOT 5 BRAKE FLUID

Version: 1.1
Released: 2017-12-22 Revision Date: 2024-09-30

Methods/Materials for Cleaning up	Dike spill and collect with an inert absorbent. Place into closable containers for disposal. Collected material is handled in accordance with section 13 "Disposal Considerations".

7. HANDLING AND STORAGE

Precautions for Safe Handling:	Avoid contact with eyes, skin and clothing. Avoid breathing vapors and mists. Wash thoroughly with soap and water after handling. Remove soaked clothing and launder before re-use.
Conditions for Safe Storage	Store in a cool area away from oxidizing agents. Protect containers from physical damage. Brake fluids absorb water from the atmosphere – always keep containers tightly closed.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits	Polydimethylsiloxane	None Established
	Tributylphosphate	OSHA PEL: 5 mg/m^3 ACGIH TLV: 5 mg/m^3 (IFV)

Appropriate Engineering Controls	Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.
Personal Protection	
Respiratory Protection:	None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.
Eye Protection:	Safety glasses or goggles recommended if splashing is possible.
Skin/Body Protection:	Appropriate protective clothing as needed to minimize skin contact. Suitable eye flushing facilities should be available in the work area. Contaminated clothing should be removed and laundered before re-use.
Hand Protection:	Use neoprene or PVC gloves for prolonged or repeated skin contact.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear liquid
Color	Usually dyed purple
Odor	Bland
Odor Threshold	N/A – very low odor

DOT 5 BRAKE FLUID

Version: 1.1
Released: 2017-12-22 Revision Date: 2024-09-30

pH	7.0 to 11.5
Freezing Point	<-58°F (-50°C)
Boiling Point	>500°F (260°C)
Flash Point	>302°F (150°C)
Evaporation Rate	Negligible
Flammability (solid, gas)	Not established (non-volatile)
Upper Explosion Limit	No data available
Lower Explosion Limit	No data available
Vapor Pressure	< 2 mbar
Vapor Density (Air=1)	Not established (non-volatile)
Relative Density	0.945-0.965 g/ml @68°F
Solubility	In ethanol: partly soluble; In water: immiscible
Partition Coefficient: n-octanol/water	Not established
Auto Ignition Temperature	> 752°F (400°C)
Decomposition Temperature	> 752°F (400°C)
Volatile Organic Compounds (VOC)	No data available
Viscosity	Approx. 35-50 cSt @68°F

10. STABILITY AND REACTIVITY

Reactivity	Not expected to be reactive.
Chemical Stability	Stable.
Possibility of Hazardous Reactions	None known.
Conditions to Avoid	Avoid contact with moisture as product is hygroscopic.
Incompatible Materials	Avoid contact with strong oxidizing agents. For user safety, brake fluid should never be contaminated with any other substance.
Hazardous Decomposition Product	Thermal decomposition may produce carbon oxides and unidentified organic compounds.

11. TOXICOLOGICAL INFORMATION

Potential Health Hazards
Eye Contact: May cause mild irritation.
Skin Contact: Prolonged skin contact may cause irritation.
Inhalation: Excessive inhalation of vapors or mists may cause upper respiratory tract irritation.
Ingestion: Swallowing large amounts may cause gastrointestinal effects including nausea and diarrhea. Tributylphosphate has been shown to cause cancer in animal feeding studies.

DOT 5 BRAKE FLUID

Version: 1.1
Released: 2017-12-22 Revision Date: 2024-09-30

Chronic Effects of Overexposure: None known.
Sensitization: None of the components have been found to cause sensitization in animals or humans.
Mutagenicity: This product is not expected to cause mutagenic activity.
Reproductive Toxicity: This product is not expected to cause reproductive or developmental effects.
Carcinogenicity: Product is classified as a carcinogen. Tributylphosphate has been shown to cause cancer in the urinary bladder in rats in feeding studies.

Acute Toxicity:

Product	Oral rat LD50 >5000 mg/kg, Inhalation rat LC50 NA, Dermal rat LD50 >3000 mg/kg
Tributylphosphate	Oral rat LD50 300-2000 mg/kg, Inhalation rat LC50 >4.0 mg/L/4 hr, Dermal rabbit LD50 >2000 mg/kg

12. ECOLOGICAL INFORMATION

Ecotoxicity

Tributylphosphate	96 hr LC50 Goldfish >170 mg/L, 48 hr EC50 water flea >70 mg/L, 72 hr EC50 green algae >20 mg/L

Biodegradation Tributylphosphate is readily biodegradable.
Bioaccumulation Tributylphosphate has a BCF of 21-35 which suggests a low potential for bioaccumulation.
Mobility in soil The product is not water soluble (floats on water). Limited mobility in soil.
Other adverse effects: None known.

13. DISPOSAL CONSIDERATIONS

Disposal Dispose in accordance with all local, state and federal regulations.

14. TRANSPORT INFORMATION

	UN Number	Proper shipping name	Hazard Class	Packing Group	Environmental Hazard
DOT		Not Regulated			
TDG		Not Regulated			
IMDG		Not Regulated			
IATA		Not Regulated			

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code): Not applicable – product is transported only in packaged form
Special precautions: None known.

DOT 5 BRAKE FLUID

Version: 1.1
Released: 2017-12-22 Revision Date: 2024-09-30

15. REGULATORY INFORMATION

CERCLA: This product is not subject to CERCLA reporting requirements, however, oil spills are reportable to the National Response Center under the Clean Water Act and many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.
EPA SARA 302: This product does not contain chemicals regulated under SARA Section 302.
EPA SARA 311 Hazard Classification: Chronic health
EPA SARA 313: This product contains the following chemicals that are regulated under SARA Title III, section 313: None.

California Proposition 65: This product does not contain any chemicals known to State of California t cause cancer, birth defects, or any other reproductive harm.

Chemical Inventories
Toxic Substances Control Act: All of the components of this product are listed on the TSCA inventory

16. OTHER INFORMATION

NFPA Rating (NFPA 704):	Health: 2	Fire: 1	Instability: 0
HMIS Rating:	Health: 2*	Fire: 1	Physical Hazard: 0
Chronic health hazard			

Date of Revision: September 30, 2024
Date of Previous Revision: December 22, 2017
Revision History:
12/22/17: New document
9/30/24: Reviewed all sections to ensure they are up to date.
